Description

FR-S3118MC-240P2 is a 16-Port 10/100Mbps + 2-Port Gigabit Combo Base-T/SFP L2 Managed PoE Switch, Provides 16 x Ethernet ports compatible with 10/100Mbps, IEEE802.3af and IEEE802.3at, plus two Gigabit Combo port. all ports support wire-speed forwarding, can provide you with larger network flexibility. The Switch with a low-cost, easy-to-use, high performance upgrade your old network to a 1000Mbps Gigabit network. Support VLAN ACL based on port, easily implement network monitoring, traffic regulation, priority tag and traffic control. Support traditional STP/RSTP/MSTP 2 link protection technology; greatly improve the ability of fault tolerance, redundancy backup to ensure the stable operation of the network. Support ACL control based on the time, easy control the access time accurately. Support 802.1x authentication based on the port and MAC, easily set user access. Perfect QoS strategy and plenty of VLAN function, easy to maintenance and management, meet the networking and access requirements of small and medium-sized enterprises, intelligent village, hotel, office network and campus network.

FR-S3118MC-240P2 16 ports have POE power supply function, support IEEE802.3at standard, 802.3af downward compatibility, power supply equipment for Ethernet, can automatically detect identification standard of electrical equipment, and through the cable for the power supply
